

Chemical Producers & Distributors Association

Vision, Mission & Goals

Vision:

The Chemical Producers and Distributors Association (CPDA) is the primary advocate of the generic pesticide, inert, adjuvant and surfactant manufacturer, as well as product formulators and distributors on federal legislative and regulatory issues.

Mission:

CPDA's mission is to enable the success of its member companies by effectively managing relevant legislative and regulatory issues. These issues may include, but are not limited to, barriers of entry, international regulation, unnecessarily burdensome and costly regulations and mitigation of risk. CPDA champions public policy that utilizes the best available science while considering its impact on member companies.

CPDA promotes its member company interests before the U.S. Congress, the Environmental Protection Agency, and other regulatory bodies that govern the industry. CPDA promotes the fact that its members produce high quality and environmentally sound products that provide benefits to their customers.

Goals:

1. Influence federal legislative and regulatory actions that balance the risks and benefits of CPDA member products.
2. Coordinate efforts with other associations on issues that affect all segments of the industry in order to consolidate efforts and bring one total industry voice to regulating bodies.
3. Effectively identify, prioritize and communicate the legislative and regulatory issues of importance to the CPDA membership.
4. Facilitate education and training activities that contribute to product stewardship and industry compliance.
5. Demonstrate stewardship of member's resources in a manner that fulfills all managerial and fiduciary requirements of the association.
